# PRIVATE SMITH SHOT BY GUARD

Prisoner in Attempting to Escape From Post's Jail Is Brought to Earth.

BULLET PIERCES HIS BODY

a few days ago while he was confined in the hospital. He was to have been arraigned before a courtmartial.

The shooting occurred about 8 o'clock yesterday morning. Smith with other prisoners had been put to work sorting supplies in the quartermaster's department. Smith succeeded in bolting through a rear door while the guard's attention was called for an instant to some other matter. Smith began to run toward the foothills. Private Henry A. Bartlett, on duty as a guard, called to the running soldier to halt. This order was repeated three times as demanded by military rule. Smith paid no attention to the guard's orders, but hastened his speed. Bartlett, a crack shot of company F. Twenty-ninth fired three shots at the fleeing prisoner, once to the right of him, once to the left and once over his head. These shots did not stop the fugitive. Bartlett adjusted the sights on his gun for 400 yards, almed and fired. The soldier ran about twenty-five feet after being shot and then turning a complete somersault fell to the ground.

Will Probably Die.

He was carried to the hospital, where it was found the bullet had passed through his back above the right hip and passing entirely through the body had come out through his right side almost in a direct line. While the attending physicians were not able to learn what course the bullet had taken through the man's body they held little hope for his recovery after making a superficial examination. As Smith started to run toward the foothills to the southwest, it is probable that he intended reaching Red Butte canyon in hope of effecting his escape. The Twelfth battery left fort D. A. Russell foothills to the southwest, it is probable foothills to the southwest, it is probable that he intended reaching Red Butte canyon in hope of effecting his escape. The Twelfth battery left fort D. A. Russell a few days ago. Smith was confined in the hospital at the time and was not able to accompany his company. Officers at the post admit Smith was held for trial upon a charge of petty theft, but will say nothing further. Citizens who were in the neighborhood of the post at the time of the attempted escape, were commanded to stand back, as several appeared anxious to join in the pursuit. An interesting feature of the shooting is that Smith is probably the first man in the United States to be shot with their workmen.

The union men have been doing some picketing, but claim that it has all been carried out in an inoffensive manner. Some of the employers are not of that opinion, however, and yesterday threatened to appeal to the courts for an injunction to prevent interference with their workmen.

Some of the other unions have been urging the moulders to start manufacturing on a small scale and the more wealthy organizations have promised financial assistance. If the men cannot win out in the strike they say they will do this.

Notice has been received in Salt Lake that two detachments of the Twelfth infantry, U. S. A., will pass through Ogden today or tomorrow. The two detachments number about 220 men each, with fourteen officers to each division. The companies are traveling in special trains. They will arrive in Ogden directly from San Francisco over the Southern Pacific. The soldiers are carrying a total of 120,000 pounds of baggage and their own rations. Both detachments are en route to New York, one going to Fort Porter, Buffalo, and the other to Fort Niagara. Lewiston. The Twelith infantry left was stationed at Fort Douglas two years ago. The companies were ordered to the Philippines and they are now returning. They were substituted here by the Twentyninth, General J. W. The first regular meeting of local 77, of the Painters, Paper Hangers and Decrators, since the lockout, was held last evening in Labor halls. It was voted to continue the strike and the reports re-ceived were encouraging to the members. About half of the members of the union are out on strike. Of these many are engaged in private work about town. A vigorous boycott is being inaugurated against the shops which are locking the men out. The men by active convassing are securing much work about the city which is being done by the striking men or by the shops which have signed the agreement.

PHYSICIANS HOLD LITTLE HOPE

FOR HIS RECOVERY.

Four other employers entered into the agreement with the union yesterday. They are W. H. Dennis, the National Art company, Brigham Piper and P. Dern. It is expected that nearly all of the smaller employers will sign before the week end, leaving the six big shops which started the lockout to fight it out alone. The Painter's union is not affiliated with the Federation of Labor and will, of course, receive no assistance from that yesterday while attempting to escape from the guard house at Fort Douglas. Smith is probably fatally wounded, the bullet passing through his body above the right hip. Smith was imprisoned for petty thieving alleged to have been done a few days ago while he was confined in the hospital. He was to have been arraigned before a courtmartial.

citred agreements with four shops in the city, giving them the increases in pay asked for and admitting the closed shop proposition. The latest firm to come in was the Western Foundry & Stove Repair works, which signed the agreement yesterday. The principal feature of the agreement is the closed shop proposition, but they are also receiving an increase of 25 cents per day, having reduced their first demand from \$4 to \$3.75 per day. This agreement has also been duced their first demand from \$4 to \$3.75 per day. This agreement has also been signed by the Union Foundry company, the Warm Springs Foundry company and E. ## CLASS FIELD DAY.

The senior normal class of the University of Utah had a class field day at Liberty park. They were following a practice which was established some years ago and which the normals have continued ever since. One day a year is put aside by them as their class day, and at this time they take a trip to some appropriate place where they pass the day in games and manage to get away from the cares of pedagogy, etc. The girls spread a luncheon for the boys.

The facels at year story

While no information to the police department, it is known that an organized gang of sure-thing men are operating in Salt Lake. Reports have been received at the police headquarters from some victim of the bunko men. A young man who came to Salt Lake from Denver Wednesday was fleeced out of \$50 shortly after his arrival.

So one of the sure-thing men boarded the train at some station between Salt Lake and Provo. struck an acquaintance with the Denverite and the pair became quite the Courts on this ground.

They have had contracts for paving with the city paving with the city refused and failed to comply with the terms of said contracts; and Whereas, They are now suing the city of \$8,350,40 and 8 per cent interest from the time the suit began, three years ago; also another suit which is now pending in the courts under the name of the City Street Improvement company, for the suit belongs.

When the two arrived here a third man was at the depot to meet the obliging stranger. He, too, was obliging. The Denverite was appreciative. They took their Denver friend to their room of South West Temple street. They looked at pictures and finally became involved in a game of cards. The Denverite lost and then comptained to the police. The crooks were arrested and turned loose. Their names, any information about them, or the reasons for letting them go, cannot be learned from the police officials. ## Sell City Real Estate.

Owing to the bankrupt condition of the city's general fund the council re-considered its action of selling a lot on Thirteenth East and Second South streets, and decided to sell it to C. L. The Webster school exhibit last night, the last of the series given in the city chools, was unique in one respect, at schools, was unique in one respect. at least. The programme was arranged and carried out entirely by the patrons of the school instead of by the teachers and pupils. Hence it was an entertainment for the teachers and a labor of love for the parents who planned it. A platform was arranged in the corridor on the second floor, and seats were placed in the hall held nearly a thousand persons.

The programme opened with a vocal solo by Joseph Paul. The other singers were Miss Emily Grimsdell, Mrs. Bessie Browning and John Robinson, while Miss Romiss Emily Grimsden, Mrs. Besset Browning and John Robinson, while Miss Romania Hyde played a violin solo. ## Sickness in Salt Lake City

More Cases of Illness This Spring Than in Former Years.

An open Winter, such as the one just passed, always leaves more sickness than usual in the Spring, as the stomach is overloaded with Winter food that

is not needed. Physicians and druggists say there are more cases of illness in Salt Lake City this Spring than in former years. Upon the recommendation of the county chairmen of the Republican, Democratic and "American" parties, the county commissioners decided yesterday to reduce City this spring than in former years. Perhaps there is not so much serious sickness, but Spring languor, loss of appetite, headaches, sleeplessness, backaches, weakness and debility, indigestion and other ills that result from indigestion or an overworked sto are more common than they have been

for some years past. This has resulted in an unusual demand for Mi-o-na stomach tablets at F. C. Schramm's. Before he felt that he could recommend this remedy, he tested it rigidly in many cases of heartburn, indigestion, wind on the stomach, debility, and other troubles that result from a weakened digestion, with the greatest success.

In fact, Mi-o-na has been so uniformly successful in curing all stomach troubles that F C. Schramm gives a signed guarantee with every 50-cent box to refund the money if it does not
